• Do you have any his tory of acne or periodic breakouts? $\ \square$ Yes $\ \square$ No
• Do you have Rosacea? ☐ Yes ☐ No
• Do you have any areas of concern with acne scarring? \square Yes \square No
It is important that you are informed about your skin condition and proposed treatment including the potential benefits and risks involved.
This disclosure is not meant to scare you: It is simply an effort to better inform you so that you may give or withhold your consent to the treatment program.
I have requested a micro-needling treatment to attempt to improve my facial expression lines and/ or skin surface. The practice of medicine is not an exact science and no guarantees can be or have been made concerning expected results. I understand that several appointments may be necessary to complete the treatment.
Risks and side effects:
Side effects and complications are minimal. Occasionally you may experience erythema, bleeding, temporary scarring, dryness and/or discomfort. I have been advised of the risks involved in such a treatment, the expected benefits of such treatment, and alternative treatments, including treatment to all.
I agree that this constitutes full disclosure, and that it supersedes any previous verbal or written disclosures. I certify that I have read, and that I have had sufficient opportunity for discussion and to ask questions. I consent to this procedure today and for all subsequent treatments.
I have answered all questions, particularly about my medical history to the best of my knowledge. I have no further questions. I freely consent to the proposed elective treatment, and understand the potential benefits and side-effects.
